lands by small holders, and the encouragement of various industries.

9. We pledge all the power and influence this party may possess to aggressive endeavor to further restrict Asiatic immigration.

10. We are of the firm conviction that one of the first and highest duties of the American Union Party administration is to hasten to a realization the recently inaugurated effort to add to the population of these Islands by assisting the immigration of farmers, laborers and artisans from the United States of America.

11. We especially commend the notable results attained and the intelligent efforts being put forth in the direction of extending and improving the public school system.

12. We urge that the necessary steps be taken to carry out the plans for the proper sewerage of Honolulu.

13. We urge the Government to secure cable communication for the Islands.

14. We declare our opposition to trusts and monopolies of all kinds.

15. We recommend the establishment of a public park in Aala, and a legislative act making the Waikiki beach property, now owned by the Government, a part of Kapiolani Park, and that all of the said land be open for the use of the public.

16. We cite the present peaceful and prosperous condition of the country as work of the American Union Party, and invite to join our ranks those citizens who have faith in a plain and progressive Government of equality.

Mr. Bishop moved that the platform as submitted be adopted as a whole. Seconded and carried without discussion or dissenting voice amidst applause.

RESOLUTIONS.

Mr. Martin presented a report of the committee on resolutions, submitting these appearing below:

"Whereas, The water system service in several districts of Honolulu is lamentably insufficient and unreliable, and

"Whereas, the Superintendent is, from lack of having funds at disposal, unable to remedy the poor delivery or make needed extensions,

"Resolved, That the Government is urged to provide means for the improvement and extension of the water system to meet the increasing demands of settlement and building."

Mr. McCandless objected to the tacit censure of the Government, whose progressive policy was praised in the platform.

Mr. Kennedy thought all the trouble was in the preamble, and he moved its entire elision. Seconded and carried.

"Whereas, The growth of the City of Honolulu is impeded by the absence of adequate transit facilities, and

Whereas, This striking fault is an inconvenience, annoyance and expense to thousands of citizens,

Resolved, That the Government is respectfully requested to bargain with responsible parties for an electric street railway line for Honolulu and suburbs."

"Whereas, Business principles and the practice of economical and intelligent management have been exemplified and vindicated by the Government's conduct of its own electric lighting system,

"Resolved, That the same should be maintained and enlarged, if necessary, to insure for the future the further illumination of the streets of Honolulu and of all public buildings by the Government plant or plants."

"Whereas, The Government powder magazine, in its present location, is a menace to lives and property, and

"Whereas, The continuation of the storage of explosives at a place imminently dangerous to many citizens and their possessions is unwise,

"Resolved, That in the opinion of the membership of this convention, advised by a united constituency, the Government powder magazine should, without delay, be transferred to some isolated situation."

Mr. Lowrie could not understand the fuss about the powder magazine. Doubtless the Government would remove it at the proper time.

Mr. Kennedy said Mr. Lowrie owned a lot near the magazine, and if the thing blew up he would have no lot. The speaker lived
